WE'RE HERE TO HELP!

CLEAN TRUCK CHECK REPORTING

We offer thorough assessments, seamless testing, onboard diagnostics, effortless testing data uploads, and consulting.

The Clean Truck Check program applies to all heavy-duty diesel vehicles operating in California with a gross vehicle weight rating (GVWR) of over 14,000 pounds, including:

- Commercial trucks and fleets
- Diesel motorhomes (recreational vehicles)
- Agricultural vehicles and equipment
- Out-of-state trucks operating on California public highways

If your vehicle meets these criteria, you must register, test, and report compliance to continue operating legally in California.

Clean Truck Check Compliance Requirements

Access Clean Truck Check Resources

* Check the database for a vehicle's specific deadline dates within the six-month window
** Enforcement holds may result from, but may not be limited to, unresolved high emitter notifications and a previous non-compliance status
