Avoid Tier 4 Replacement Costs

Retrofitting Your Off-Road Diesel Equipment May Be the Smarter Solution

CARB has mandated that all fleets, regardless of size and model year, must use R99 or R100 renewable diesel fuel.

Call (559) 579-1450 Ext. 303 for a compliance snapshot & cost-saving plan!

CARB's updated Off-Road Diesel Regulation is now in full swing, with fleet phase-outs already underway. But if you're in construction, you don't have to jump straight to costly Tier 4 engine replacements. Our retrofit and compliance experts can help you extend the life of your equipment—and keep you compliant—without the massive expense of new equipment.

We offer:

- Fleet Compliance Assessments
- Verified Diesel Emission Control Strategies (VDECS)
- Retrofit Options That Save Thousands
- CARB Consulting & Certificate Support
- And More

Act Now—Phase-Out Dates Are Closing In!
